Continuous Improvement (Standards 1.1, 2.1, 3.1)

Data collection, analysis and actions

Ausintec Academy collects data on a regular basis in order to inform the processes of:

- Compilation of the organisation's Quality Indicators
- Improvements to all aspects of training
- Professional development of staff
- Improvements to assessment

Data is collected systematically by:

- National tools for the collection of data for the Quality Indicators
- Interviewing learners regularly
- Obtaining written feedback from learners
- Obtaining written feedback from trainers and assessors
- Obtaining feedback from parents and guardians
- Obtaining feedback from employers following work placements of learners
- Analysis of the root cause of complaints should they occur

The data is analysed for relevance to possible improvements to:

- Assessment items and methodology
- Selection of competencies in qualifications
- Appropriateness of training methods
- The need for staff professional development

Improvements are made to relevant areas of the RTO operations on the basis of the data collected. Records are kept of changes made. These records are reviewed at Internal Audits.

Designated person

The Director (Ms Glenys Cox) is responsible for ensuring the internal audit is conducted and opportunities for improvement are acted upon.

The organisation will collect and analyse stakeholder and student feedback regularly to be coordinated by the designated person. This information will be used in the Internal Review and Internal Audit processes. The RTO's Executive Management Team will use this data to inform its focus on continuous improvement and review of policies and procedures.

Internal review procedure

An internal review (IR) will be conducted for each qualification/vocational area at least once each year. The IR is different and separate from the internal audit process but may be used to inform internal audits. The IR committee reviews, compares and evaluates the assessment processes, tools and evidence contributing to judgments at least annually in each vocational training area (VTAs). The IR committee will also review plans for the transition to new or revised Training Package in accordance with DETA's Transition Requirements and Maintaining Scope of Registration Policy. The transition to the new Training Package must be completed within 12 months.

The Director appoints members of each vocational internal review committee and the chair. The Director recognises the need to maintain a balance of views and to gain advice from the following groups:

- teachers of the qualification or course in the vocational training area
- clients from a qualification or course in the vocational training area
- industry

The chair of each IR committee will provide a written report to the RTO Executive Management Team at its meeting immediately following the IR. Any recommendations should include a timeline for their implementation.

Moderation procedure

All trainers/assessors of a qualification or course regularly give feedback on the assessment process and this feedback is co-ordinated by the course co-ordinator who reviews, compares and evaluates the assessment processes, tools and evidence contributing to their judgments. A report from this meeting will be presented to the internal review for inclusion in the report of that meeting.

Risk management policy

Risk management involves the identification, analysis and evaluation of an RTO's risk of compliance with the AQTF standards and the development of cost effective strategies to treat those risks. The Director is responsible for assessing and managing risks associated with all aspects of the RTO's operations. Ausintec Academy will develop a risk identification register to manage risks against the RTO's compliance with the AQTF standards.

Version control procedure

Ausintec Academy's method of version control is to use a page footer that includes the date the file was reviewed and the initials of the person making the review.

Register of Documents

The designated person maintains the 'Register of Documents' which records all documents, e.g.

- this Policies and Procedures Manual
- other student information
- all other documents used in the activities as an RTO.

This register includes issue and amendment status. The designated person reviews all documents before adding them to the register. All staff have access to the materials related to their position.

Standard 1 Quality training and assessment

Element 1.1: Continuous Improvement

Refer to [Continuous Improvement](#) section.

Element 1.2: Training and Assessment Strategies

Training and assessment strategies policy

Training and assessment strategies will be developed for each qualification that is delivered and assessed. These strategies will be developed in consultation with industry and will be validated through the internal review procedures. These strategies will reflect the requirements of the relevant Training Package.

These strategies will identify target groups.

The school has access to the staff, facilities, equipment, training and assessment materials required to provide the training and/or assessment services within its scope of registration and scale of operations, to accommodate client numbers, client needs, delivery methods and assessment requirements.

Element 1.3: Resources consistent with industry standards

Ausintec Academy has access to all relevant physical resources as outlined in the relevant Training Package or course. Staff are provided with the resources necessary to meet the human resource requirements of the relevant Training Package or course.

If, for whatever reason, Ausintec Academy cannot maintain the relevant resources to deliver the Training Package or course, Ausintec Academy will attempt to provide students with alternative opportunities to complete the course and the related qualification. Ausintec Academy retains the right to cancel the course if it is unable to meet requirements, to change the course or to update the course to a newer version of a Training Package if one becomes available.

Element 1.4: The competence of RTO staff and contractors

Recruitment policy

All staff/contractors will undergo a VET induction procedure on employment/contract by Ausintec Academy or when they become involved with training/assessment and all staff /contractors will be monitored in regard to their performance in delivering and assessing vocational education and training.

Trainer/Contractor induction procedure

All requests for professional development are accompanied by a written analysis (no more than one A4 page) of how the activity will improve identified knowledge and/or skill deficiencies or currency requirements. The Professional Development Committee will have regard to the following priorities when allocating funds and other resources related to professional development:

- a. the written statements made by the trainer/contractor in support of their need for the professional development
- b. the need to up-skill non-teaching members of staff involved in VET, e.g. administration staff
- c. the strategic plan of Ausintec Academy with regard to VET
- d. other professional development initiatives.

The Professional Development Committee will approve professional development only when the recipient agrees to complete an evaluation form on completion of the activity. The evaluation form is to focus on the benefit of the professional development to the trainer/contractor, specifically the skills identified by the trainer/contractor before the activity.

All staff/contractors of the school involved in VET will undergo a regular refresher course on the Ausintec Academy's policies and procedures relating to VET

Human resources policy

The school will ensure that all staff/contractors delivering and/or assessing VET will meet the requirements (of the relevant Training Package or course) before beginning delivery and/or assessment.

Human resources procedure

Course Co-ordinators or equivalent of each course delivering and assessing VET will ensure that there is a Staff/Contractor Matrix for each qualification delivered showing which members of staff/contractors deliver and assess particular units of competency. All trainers/contractors shown on the Staff /Contractor Matrix must have an up-to-date staff profile on file with the administration of Ausintec Academy, including statements about relevant industry relationship and currency and verified copies of all qualifications. Unless they are approved Trainers/Assessors, Ausintec Academy does not use assessment by work placement supervisors. Students on work placements may record their activities and submit these records as a third party report. If the Course Co-ordinator deems these records significant, they may then contact the workplace supervisor to discuss and confirm the accuracy of the student's entries in the record. This record may be used by the assessor to support judgements of competency.

Element 2.4: Access and equity policy

Ausintec Academy is inclusive of all students regardless of sex, race, impairment, or any other factor. The Director has access and equity as a nominated part of their duties.

Access and equity procedure

Accuracy of Records

Course Co-ordinators maintain accurate and current records of each student's progress towards and achievement of competencies. These records are recorded both online and offline and are regularly checked.

When the student nears achievement of sufficient competencies for award of the full qualification, the Course Co-ordinator checks student achievements against the qualification packaging rules.
